

Will Egypt be able to harness renewables for hydrogen production?

The move follows Egypt's Petroleum Minister, Tarek El Molla, saying the country planned for renewables to make up 60% of its energy mix by 2030. Its location in the global "sun belt" means it averages 9-11 hours of sunshine a day, with few cloudy days, giving it high potential for harnessing renewables for hydrogen production.

Is AMEA power launching a green hydrogen facility in Egypt?

AMEA Power's Green Hydrogen Facility Renewable energy company AMEA Power has signed an agreement to establish a green hydrogen facility in Egypt. The plant will utilize around 500 MW of renewable energy for hydrogen production, which will be primarily aimed at exporting to European markets.

Can Egypt become a green energy hub?

Most of the announced projects will be producing ammonia as an end-product for export to Europe. Egypt's unique geographical location at the crossroads of Africa, Europe and Asia, as well as its control of the Suez Canal, places the country in a strategic position to become a global green energy hub.

Why is Egypt investing \$40 billion in green hydrogen?

With aims to become a key player in the global energy transition, Egypt is advancing its green hydrogen ambitions with a \$40 billion investment plan.

Is Egypt ready for a green energy transition?

Set to support Egypt's clean energy goals under the Paris Agreement and COP27, the project is poised to position the country at the forefront of the global energy transition. Egypt is advancing a \$40 billion green hydrogen strategy, with upcoming projects set to enhance its role as a major player in green energy production and exports.

Who is developing a green hydrogen project in Egypt?

With aims to produce 13,000 tons of green hydrogen annually, renewable energy company Scatec - in partnership with chemical company Fertiglabe, engineering contractor Orascom Construction, the Sovereign Fund of Egypt and the Egyptian Electricity Transmission Company - is developing a green hydrogen project in the Egyptian town of Ain Sokhna.
