

The Honourable Jonathan Wilkinson, Minister of Energy and Natural Resources, announced a new investment of \$1 million from the Energy Innovation Program's Clean Fuels and Industrial Fuel Switching initiative to Ekona Power Inc. This funding will support Ekona in advancing its methane pyrolysis solution for clean hydrogen production from natural gas.

Vancouver, British Columbia--(Newsfile Corp. - January 3, 2024) - Ekona Power Inc. (Ekona(TM)) is excited to announce its xCaliber(TM) methane pyrolysis reactor has met 2023 performance targets.

DEPLOY EKONA WHEREVER THERE'S NATURAL GAS INFRASTRUCTURE. Ekona is literally bringing carbon and greenhouse gas management back down to earth. Using an established process - methane pyrolysis - in a ground-breaking new way, Ekona's . xCaliber(TM) reactor utilizes pulsed combustion and high-speed gas dynamics to split natural

Ekona Power Inc. Pilots Methane Pyrolysis Solution for Low-Cost Clean Hydrogen The company met internal performance milestones in late 2023, validating the xCaliber(TM) reactor in a 200-kilogram-hydrogen-per-day system and preparing the platform for field deployment.

Seed Round - Ekona Power . 1: obfuscated. obfuscated. Breakthrough Energy Solutions Canada: Oct 24, 2017: Seed Round - Ekona Power . 1: obfuscated. obfuscated -- Investors. Edit Investors Section. Number of Lead Investors 4. Number of Investors 17. Ekona Power is ...

Ekona Power (Ekona) is a hydrogen technology developer that is pioneering a Pulse Methane Pyrolysis (PMP) platform to deliver low-carbon, low-cost, and scalable industrial hydrogen production. This breakthrough technology development ensures a robust demand for natural gas as a key input for the hydrogen economy. Since 2020, Ekona has been part ...

Ekona Power Inc. is a Burnaby-based company that is developing a novel methane pyrolysis solution for clean hydrogen production. The company's solution converts natural gas into hydrogen and solid carbon, thereby reducing CO₂ emissions when compared with conventional processes. Ekona's unique pyrolysis reactor uses the principles of ...

Clean Hydrogen In A Hurry: Ekona's Pulsed-Methane Pyrolysis Solution Bypasses CCS Needs. By Carter Haydu Wednesday, September 27, 2023, 7:48 AM MDT. Ekona Power Inc.'s pulsed-methane pyrolysis converts methane into hydrogen and solid carbon, which eliminates the need for carbon capture and storage (CCS) infrastructure for those wanting to ...

Ekona TM has attracted more than CAD\$100M in strategic investment from global leaders in Energy, Heavy

Industry, and Finance, and funding from federal and provincial governments, agencies, and NGOs. We gratefully acknowledge this support. ... Ekona Power Inc. 8170 Winston Street, Burnaby, BC V5A 2H5, Canada

Ekona Receives \$1M from NRCan and Alberta Innovates for 20-tpd Hydrogen Production Plant FEED Study. We're excited to announce \$1 million in new investment from long-time supporters Natural Resources Canada (NRCan) and Alberta Innovates as we work towards the commercial deployment of our hydrogen production solution. Ekona's methane pyrolysis ...

Existing approaches to producing hydrogen are either emissions-intensive, in the case of steam methane reforming, or expensive in the case of electrolysis with renewable energy. Ekona Power is creating a new solution to producing industrial scale hydrogen that is both low-cost and clean by converting natural gas into hydrogen, clean power, and pure CO2 that [...]

VANCOUVER, British Columbia--(BUSINESS WIRE)-- Ekona Power Inc., a Vancouver-based venture that is developing a novel hydrogen production technology, today announced its close of a CAD \$79 million equity investment. The investment will help support the commercial readiness of Ekona's novel methane pyrolysis technology platform, which ...

Ekona's focus is on how we can utilize abundant, low-cost hydrocarbon resources in cleaner, better ways. In pursuit of this goal, we've developed a novel, non-catalytic methane pyrolysis platform that uses pulsed combustion and high-speed gas dynamics to convert natural gas into hydrogen and solid carbon.

Ekona Power is developing a novel methane pyrolysis platform that can decarbonize natural gas for industry and deliver a large-scale, low-cost hydrogen production solution that can build off of existing infrastructure to ...

Ekona Power (Ekona) is a hydrogen technology developer that is pioneering a Pulse Methane Pyrolysis (PMP) platform to deliver low-carbon, low-cost, and scalable industrial hydrogen production. This breakthrough ...

Burnaby-based cleantech startup Ekona Power has closed its \$79 million CAD equity Series A round.. The financing was led by oilfield company Baker Hughes. The amount of Baker Hughes' investment was undisclosed, but was reportedly the first tranche of its Series A round and gave it a 20 percent stake in Ekona, according to Business in Vancouver.A ...
