

For electric drive vehicles including electric vehicles, hybrid electric vehicles and plug-in hybrid electric vehicles a new battery/ultra-capacitor hybrid energy storage system ...

Energy sources are of various types such as chemical energy storage (lead-acid battery, lithium-ion battery, nickel-metal hydride (NiMH) battery, nickel-zinc ... Modeling and ...

It demonstrates that hybrid energy system technologies based on batteries and super capacitors are best suited for electric vehicle applications. In these paper lead acid battery is used as ...

International Journal of Power Electronics and Drive System (IJPEDS), 2018. A combination of battery and ultracapacitor as a hybrid energy storage system (HESS) for an electric vehicle ...

A new battery/ultracapacitor hybrid energy storage system for electric, hybrid, and plug-in hybrid electric vehicles. IEEE Trans. Power Electron ... Control design for robust ...

This paper presents a C-rate control method for a battery/supercapacitor (SC) hybrid energy storage system (HESS) to enhance the life cycle of the battery in electric vehicles (EVs). The proposed HESS ...

This manuscript presents a hybrid approach for an energy management system in electric vehicles (EVs) with hybrid energy storage, taking into account battery degradation. ...

Selection and peer-review under responsibility of the scientific committee of the 10th International Conference on Applied Energy (ICAE2018). 10th International Conference ...

4 ENERGY STORAGE DEVICES. The onboard energy storage system (ESS) is highly subject to the fuel economy and all-electric range (AER) of EVs. The energy storage devices are continuously charging and discharging based on ...

In this paper, a new battery/ultracapacitor hybrid energy storage system (HESS) is proposed for electric drive vehicles including electric, hybrid electric, and plug-in hybrid ...

This article's main goal is to enliven: (i) progresses in technology of electric vehicles" powertrains, (ii) energy storage systems (ESSs) for electric mobility, (iii) electrochemical energy storage ...
