

What is high density electric mobile shelving?

With High Density Electric Mobile Shelving Systems, getting the most out of your space is a key consideration. By mounting shelving units on movable carriages, this system eliminates the need for multiple aisles. You can utilize your existing shelving or storage cabinets with the High Density System or select from a wide range of storage options.

What is a mobile shelving system?

Mobile shelving offers a versatile storage solution by mounting shelving units on carriages that move along tracks. These systems provide a flexible and efficient way to store various items, from files to heavy equipment, making them ideal for both office and industrial environments.

What are the different types of mobile shelving?

Mobile shelving goes by various names, including rolling shelving, movable shelving, slidable shelving, track shelving, and high-density mobile shelving. Explore our extensive range of options, including high-density solutions. From athletic gear and medical supplies to books and clothing, we have versatile solutions to meet your needs.

Are mobile shelving systems worth it?

The worth of mobile systems depends on your specific needs. If you aim to maximize storage in a confined area and seek versatility, the added expense is justified by the benefits it offers. We sell truckloads of it when it is the correct solution. Many shelving systems are easily relocatable, but this can vary by brand.

Can mobile shelving double or triple your storage capacity?

You can double or even triple your storage capacity within the same footprint using mobile shelving. Compacting the shelves together when not in use achieves this. Mobile shelving allows for better organization of stored items. By having a designated place for everything, you can reduce clutter and improve efficiency.

Why should you use mobile shelving?

Mobile shelving allows for better organization of stored items. By having a designated place for everything, you can reduce clutter and improve efficiency. Items stored on mobile shelving are easy to access. By moving the shelves to create an aisle, you can quickly retrieve what you need without having to navigate through multiple fixed aisles.
