

What are enepaq battery modules?

Enepaq Battery Modules blend the latest battery technology with safety and ease of use. Each module contains several 3.6V 18650 Li-ion cells connected in parallel. Multiple blocks can be connected in parallel and series to form high voltage Battery Packs of various shapes and sizes.

What is enepaq technology?

Enepaq technology allows us to build a battery module from 1s1p to 1s20p with 18650 size cells. Each block comes with various options: Enepaq Battery Modules combine the best of two worlds - Low Weight, High Power, Quality, Safety UN38.3 certified, and Ease of Use.

What is enepaq VTC6?

ENEPAQ - Model VTC6 - Sony/Murata ... Battery Module from Enepaq combine the best of two worlds - Low Weight, High Power, Quality, Safety and Ease of Use. Enepaq Battery Modules are a unique blend of latest battery technology, safety and ease of use. Each Battery Module is made of several 3.6V 18650 Li-ion cells connected in parallel.

What are enepaq batteries made of?

Each block is made of several 3.6V 18650 Li-ion cells connected in parallel. Several such blocks may be connected in parallel and series to form high voltage battery packs of various shapes and sizes. Enepaq technology allows us to build a battery module from 1s1p to 1s20p with 18650 size cells. Each block comes with various options:

Are enepaq batteries safe?

Enepaq battery modules feature a built-in temperature sensor system that surpasses the safety requirements of FSAE (Formula Electric SAE) 2017 regulations. This innovative system provides several key benefits:

Why should you choose enepaq?

Superior Safety and Performance: Enepaq's advanced temperature monitoring system offers peace of mind by ensuring the safety and optimal performance of your battery pack. This comprehensive and efficient solution allows for early detection of thermal issues and helps prevent potential failures.

Description Enepaq's New Molicel P42A 21700 Battery Modules. Enepaq's innovative new battery modules, built with high-performance Molicel P42A 21700 cells, offer the perfect combination of lightweight design, high power output, ...

Battery Management System and Li-ion Battery Modules are an essential component for powering autonomous robots. ENEPAQ high-performance batteries provide reliable and long-lasting power, making them an excellent ...

Enepaq Battery Modules blend the latest battery technology with safety and ease of use. Each module contains several 3.6V 18650 Li-ion cells connected in parallel. Multiple blocks can be connected in parallel and series to form high ...

Enepaq Li-ion Battery Modules from 18650 and 21700 cells combine the latest battery technology with safety and ease of use designed for effortless battery pack assembly. Each module is ...

ENEPQ's battery modules, made from 18650 and 21700 cells, offer a unique blend of the latest technology, safety, and ease of use. Our modules are recognized globally, especially in the FSAE community, for their quality and ...

Enepaq Li-ion Battery Modules from 18650 and 21700 cells combine the latest battery technology with safety and ease of use designed for effortless battery pack assembly. Each module is constructed from multiple 3.6V 18650 and ...
