

What does the Department of energy do in Lesotho?

The Department of Energy is committed to increasing energy access and ensuring security of energy supply in the country. The Department of Energy is tasked with promotion and implementation of renewable energy projects and programs. A website of the Department of Energy (DoE) in Lesotho with an Energy Management Information System (EMIS).

Who is Energy Solutions Group?

Energy Solutions Group acquires and operates large-scale solar energy parks and installations, contributing to the transition towards a more sustainable energy landscape. We focus on executing projects with high energy yields to make a lasting impact on the energy market.

How will the Lesotho co energy system work?

The system will provide a stable energy supply for the Lesotho CO by covering around 28% of the Lesotho CO's energy demand and providing electricity supply up to 54,669 kWh per annum. However, the existing diesel generator will remain as a backup in the case of an emergency.

Will a solar PV system provide a stable energy source for Lesotho?

With an objective of providing a stable energy source for the Lesotho CO, the proposed solar PV system will have a total capacity of 35 kWp, thus becoming one of the main sources of electricity for the CO.

Why did onepower move to Lesotho?

The move coincided with OnePower's successful bid to develop the first utility-scale solar project in Lesotho, a 20-megawatt project that will sell electricity to Lesotho's central grid in addition to OnePower's minigrid work. OnePower expects that project, named Neo 1, to start delivering power to Lesotho's central electric grid next year.

Does Lesotho have electricity?

Known as the kingdom in the sky, Lesotho is a small, developing country crossed by mountain ranges and rivers, making it difficult to get electricity to rural regions. Recent estimates suggest that less than half of all households have electricity.
