

What is USAID Laos energy security?

USAID Laos Energy Security, a five-year activity funded by the United States Agency for International Development (USAID), supports the Government of Laos (GOL)' efforts to improve the planning, policies, and performance of the Lao energy sector.

What is Laos energy security?

Laos Energy Security (LES) is a part of the U.S. Government's initiative: "Enhancing Development and Growth through Energy" (CLEAN EDGE Asia). CLEAN EDGE Asia supports expanded access to energy, promotes energy diversification and trade and integration of clean energy markets, and strengthens energy security throughout the Indo-Pacific region.

How did the activity support Laos' EV adoption policy?

The Activity supported Laos' EV adoption policy through various means, including facilitating public-private dialogue for EV Charging Station Business Management Regulation, developing a recommendation report to support drafting the national EV roadmap, and fostering knowledge exchange on regional EV developments.

This initiative is a collaborative effort between Graphion Energy Solutions and the Ministry of Energy and Mines of Laos, aiming to increase the share of electric vehicles on the roads to 30% by 2030. The 10-minute charging system is a crucial component in achieving this ambitious target.
