Energy storage battery loading and unloading rack

What is a battery rack?

Battery racks can be connected in series or parallel to reach the required voltage and current of the battery energy storage system. These racks are the building blocks to creating a large,high-power BESS. EVESCO's battery systems utilize UL1642 cells,UL1973 modules and UL9540A tested racks ensuring both safety and quality.

Do Aten racks come with a battery energy storage system?

All ATEN Racks come with a Battery Energy Storage System(BESS) Controller and High Voltage Unit (HVU) Power Supply. The BESS Controller allows for the monitoring of the battery cells within the rack as part of the overall battery management system (BMS).

What is a lithium ion rack cabinet?

and are responsi-ble for connecting/disconnecting individual racks from the system. A typical lithium-ion (li-ion) rack cabinet configura-ti comprises several battery modules with a dedi-cated battery energy management system. The most commonly used batteries in energy stor-age installations are li-ion batteries;

What is a greate battery rack?

When used in AGreatE's BESS systems (64 kWh to 138 kWh with a rated voltage of 358 V to 768 V) these Battery Racks can be stacked limitlessly to create the specific storage size your project needs. The difference is clear, get better results with the ATEN Pack and Rack system.

How does a battery energy storage system work?

The HVAC is an integral part of a battery energy storage system; it regulates the internal environment by moving air between the inside and outside of the system's enclosure. With lithium battery systems maintaining an optimal operating temperature and good air distribution helps prolong the cycle life of the battery system.

How do I scale my energy storage?

Easily scale your energy storage at the pack level with 7 Packs at 64 kWh to 15 Packs at 138 kWh. Increase energy storage at the rack level by utilizing multiple ATEN Racks connected together for larger energy storage systems. The ATEN LFP Battery Rack is the Building Block to all ATEN Series BESS Battery Energy Storage Systems.
