

What is energy storage Forum?

We are Europe's first conference dedicated solely to energy storage since 2010. All of our Forum's culminate with the unique Building the Action Plan feature. Join us for this session and take back an action list to the workplace.

What is the energy storage Policy Forum?

The Energy Storage Policy Forum features speakers at the administration, federal, and state level to discuss what is ahead for policy around energy storage. From discussion of state regulatory and legislative policy to federal infrastructure, all aspects of policy and advocacy are examined for the impact on energy storage in the year ahead.

What is energy storage?

Energy storage is integral to electrical supply, transmission, and distribution systems. The topic is gaining attention as stakeholders recognize the revolution storage solutions can bring to the clean energy industry.

Should energy storage be regulated?

The European Association for Storage of Energy (EASE) have also stated that regulations must keep up with advances for the technology to flourish. The benefits of energy storage for both end users and the grid have already reached a tipping point where costs are justified for many business cases - this trend shows no sign of stopping.

Why is energy storage a problem in the EU?

Energy storage suffers from lack of regulatory certainty within the EU. While a number of member states - Germany and the UK especially - have made great strides in adoption levels, lack of consistency is a looming issue.

Why are energy storage systems important?

Since the electrical grid has existed, so has the need for stored forms of energy that can be drawn on to meet times of peak demand and regulate frequency. In the past, the bulk of this extra energy came from fossil fuel plants that were fired up and down with demand. Are energy storage systems profitable?

The company focuses on stationary Energy Storage across all applications from Residential, Self - Consumption and Microgrid through to large scale stationary storage. We are Europe's first ...
