

What is a battery energy storage system integrator?

A battery energy storage system integrator is a company that specialises in procuring (and/or manufacturing) subsystem components, integrating hardware and software and supplying completed battery energy storage systems.

Is Trina storage a good energy storage system integrator?

The latest 2024 Energy Storage System Integrator Report released by market insight company, S&P Global Commodity Insights, reveals that Trina Storage has secured a position among the Top 10 energy storage integrators in China, the UK, and Australia. The rankings are based on the total amount of installed and contracted projects in each region.

Which energy storage company has the most vertically integrated supply chain?

Shang commented that Tesla has the energy storage industry's most vertically integrated supply chain and has also been ramping up production at a 40-GWh Megapack factory in Lathrop, California. Wood Mackenzie ranks companies by the number of shipments in MWh. Choose your newsletter by Renewables Now.

Why is the BESS integrator market becoming less concentrated?

The global BESS integrator market is becoming less concentrated, mainly due to multiple China-based companies entering the market, with six of the global top 10 vendors China-based. This is partially because the country's BESS market is exclusively supplied by domestic companies. In addition, China installed the most BESS globally in 2023.

Why is the energy storage industry growing in California?

Market concentration in the region increased, mainly due to Tesla growing its market share. Shang commented that Tesla has the energy storage industry's most vertically integrated supply chain and has also been ramping up production at a 40-GWh Megapack factory in Lathrop, California.

Are XYZ storage & Envision bolstering their competitiveness?

XYZ Storage and Envision tied in third place. Shang noted here, "Importantly, established companies have also been bolstering their competitiveness in terms of price, performance of products and solutions across all regions."
