

Is Paraguay a future energy exporter?

Paraguay is a net energy exporter with hydro and biomass resources contributing 82% of the country's final energy supply over the last decade. Yet a growing economy coupled with increasing energy demand particularly in the transport sector, has encouraged the uptake of fossil fuels, prompting a holistic assessment of the country's future energy.

Does Paraguay need to diversify its energy mix?

Paraguay sees the need to encourage the diversification of its energy mix through the adoption of renewable energy and net zero technologies.

What is the energy mix of Paraguay?

Tambi&#233;n disponible en Espa&#241;ol. The energy mix of the Republic of Paraguay is dominated by clean energy sources, where hydropower accounts for the largest share of the country's power generation, representing around 99.5% of the installed power capacity.

What fuel does Paraguay use?

Biomass, specifically firewood, is the largest fuel source consumed in Paraguay at 43% of final energy demand. Only 17% of fuel wood demand is met by wood from managed forests. The country continues to remove forest at one of the highest rates in all of South America at around 325,000 hectares per year, mostly in the Western Chaco region.

Does Paraguay need zero-emissions decarbonization?

Source: Prepared by the authors using LEAP. To highlight the policies necessary for zero-emissions decarbonization of energy-use sectors in Paraguay, this re-port introduces three scenarios for Paraguay's final energy demand matrix from 2018 to 2030, 2040, and 2050 based on the freely available LEAP software and available base-line data as of 2018.

What is the main source of electricity in Paraguay?

Hydropower is the main source of Paraguay's electricity generation and one of its main exports.

storage if necessary or economical in a few hard-to-abate sectors; and ensuring massive gains in energy efficiency. Paraguay has moved in the right direction to leverage this shift in technology ...

Like most of Latin America, the grid-scale battery storage market in Paraguay is at a relatively early stage. However, recent moves by the government show that may be about to change. In early 2021, the country's ...
