

How much does an energy storage system cost?

The modeled \$/kWh costs for 600-kW Li-ion energy storage systems vary from \$469/kWh (4-hour duration) to \$2,167/kWh (0.5-hour duration). The battery cost accounts for 41% of total system cost in the 4-hour system, but only 11% in the 0.5-hour system.

How much does an inverter cost?

Inverter type has the largest impact on installed system cost, with use of string inverters resulting in \$1.61/WDC and use of microinverters resulting in \$1.92/WDC.

How much does a solar PV inverter cost?

Solar PV inverter cost, however, typically underestimates PCS cost by approximately 20% (Baxter, 2020a; Vartanian, 2020). Discussions with a PCS vendor indicated a typical cost of \$45/kW for utility-scale PCS at low volume (Austin, 2020).

How much does a non-battery energy storage system cost?

Non-battery systems, on the other hand, range considerably more depending on duration. Looking at 100 MW systems, at a 2-hour duration, gravity-based energy storage is estimated to be over \$1,100/kWh but drops to approximately \$200/kWh at 100 hours.

How much does gravity based energy storage cost?

Looking at 100 MW systems, at a 2-hour duration, gravity-based energy storage is estimated to be over \$1,100/kWh but drops to approximately \$200/kWh at 100 hours. Li-ion LFP offers the lowest installed cost (\$/kWh) for battery systems across many of the power capacity and energy duration combinations.

Are energy storage systems cost estimates accurate?

The cost estimates provided in the report are not intended to be exact numbers but reflect a representative cost based on ranges provided by various sources for the examined technologies. The analysis was done for energy storage systems (ESSs) across various power levels and energy-to-power ratios.

The total cost can be broken down into the following categories: (1) ESS cost, which is actually the overnight capital cost of the storage unit and can be divided into two parts, namely cost per unit power output (\$/kW) and cost per unit ...
