It is powerful enough to charge a CPAP or lamp for whole nights, smartphone 40+ times, laptop 4+ times, mini-refrigerator 5+ hours, camera 25+ times. ?Phone Remote Control?: ALLPOWERS portable power station can be controlled by your phones via Bluetooth needn't network.

What makes the explorer 1000 a good portable power station?

After researching and testing dozens of portable power stations over the past six years, we found that the Explorer 1000's impressive max output, wide array of ports, easy-to-use interface, and rugged exterior helped it stand out from the competition. This unit offers lots of power in a portable, durable, easy-to-use package.

How much power does a explorer 300 have?

Plus, it takes up less space in a car trunk or a closet. It offers great battery life for a unit this size. The Explorer 300 has a rated capacity of 293 Wh, and in our tests it ran our tabletop fan for six hours (just as long as any other contender weighing under 10 pounds). It packs a lot of power into a small unit.
