

# Energy storage power supply shipment ranking

What is a battery energy storage supply chain forecast?

It highlights key trends for battery energy storage supply chains and provides a 10-year demand, supply and market value forecast for battery energy storage systems, individual battery cells and battery cell subcomponents (including cathode, anode, electrolyte and separators).

Which energy companies have the most GWh shipments?

BYD and EVE Energy followed closely each with shipments of over 25 GWh, while REPT BATTERO and Hithium each ranked fourth and fifth with shipments of over 15 GWh. Despite intense price competition, the leading companies demonstrated significant cost control advantages, reinforcing the "the strong get stronger" pattern.

How many GWh of energy-storage cells were shipped in the first quarter?

The world shipped 38.82 GWh of energy-storage cells in the first quarter this year, with utility-scale and C&I projects accounting for 34.75 GWh and small-scale (including telecom projects, hereafter as small-scale) projects 4.07 GWh, according to Global Lithium-Ion Battery Supply Chain Database of InfoLink.

Is Dyness a good energy storage company?

To date, Dyness has introduced more than ten best-selling residential energy storage products, including the Tower series, Orion, and DL5.0C. Its product strength has been highly recognized in the industry.
