

What is the Energy Storage Summit?

Our Summit aims to highlight the fundamental role that energy storage will play in this journey, and will strive to recognise, explore and analyse key challenges that may present themselves on the trajectory ahead. One scenario estimates Europe will reach 29.6 GWh of installed capacity by the end of 2024, marking a 72% increase YoY.

What is Energy Storage Summit USA 2025?

Energy Storage Summit USA 2025 will provide the perfect platform to connect key industry players across the entire value chain of this buzzing US market.

Why should you attend the Energy Storage Summit?

Over the past ten years, the Summit has gained recognition as the biggest, busiest, most informative, and best networking event in the European energy storage sector, where deals are made on site; generating efficient business for everyone who attends. workshops, an after-party, private networking dinners and much more!

While the global energy storage market is rapidly adopting 300Ah+ battery cells, primarily based on 314Ah, research into and mass production of the next-generation 500Ah+ large-capacity battery cells is already in full swing. ... Energy Storage Summit 2025. February 17 - February 19, 2025. London, UK. Green Hydrogen Summit West Coast 2025 ...

The Energy Storage Summit programme is designed to both respond to the market's dynamics as well as itself helping set the agenda with forward-thinking technology sessions and case studies. There's been a ...
