

Energy storage system integrator ranking 2025

Which country installed the most battery energy storage system integrators in 2023?

China also installed the most BESS globally in 2023. The Wood Mackenzie report 'Global battery energy storage system integrator ranking 2024' states that the market share of the global "top five" BESS integrators shrank to 47%, down from 62% in 2022.

What is the relationship between system integrator market and energy storage industry?

Because of the strong correlation between the system integrator market and the wider energy storage industry, this research touches on broader energy storage topics, such as policy effects, market growth and supply chain.

Which energy storage systems are the most popular in 2021?

Published by Statista Research Department, Jun 28, 2024 In 2021, Tesla accounted for a 5.3 percent share of the global energy storage integration system market, which combines the components of the energy storage technologies into a final system. NGK Insulator and Fluence accounted for the second- and third-largest market shares.

What is a battery energy storage system integrator?

A battery energy storage system integrator is a company that specialises in procuring (and/or manufacturing) subsystem components, integrating hardware and software and supplying completed battery energy storage systems.

Is the Bess integrator industry becoming more competitive?

Kevin Shang, senior research analyst at Wood Mackenzie, said: "As major policy developments propel the battery energy storage systems market, the BESS integrator industry is becoming increasingly competitive.

Who is the best Bess integrator in APAC?

CRRC jumped to the top among BESS integrators in APAC, which Wood Mackenzie attributed to cost competitiveness, followed by Hyperstrong. XYZ Storage and Envision tied in third place.

The global battery energy storage system market size in terms of revenue was estimated to be worth \$7.8 billion in 2024 and is poised to reach \$25.6 billion by 2029, growing at a CAGR of 26.9% during the forecast period. ...
