

At AleaSoft we are experts in the fields of statistical models and forecasts related to energy markets, renewable energy, project financing and PPAs. We have organised the following webinars on topical and interesting topics that you can have access to upon request: Upcoming webinars Prospects for energy markets in Europe from 2025 onwards Jan 16, [...]

The Atacama desert region in Chile is a hotbed of solar and storage activity. Image: Elias Roviello. Nine projects pairing solar or wind with energy storage submitted environmental impact assessments (EIAs) in Chile last month, totalling well over 2GWh of capacity, by companies including Engie, EDF and Sonnedix.

I've registered for the webinar: Chile's growing energy storage market??(April 2nd at 9h Mexico / 12h Chile / 17h CET) Join me for this free session for industry professionals, it's going to ...

Webinar: Energy Storage vs. renewable discharges in Chile Soledad Salas Commercial and Regulatory Manager Claudio Negrete Director of Studies Cristina Galán Content & Event Manager [Moderator] Chile is positioned as a leader in renewable energies, with an ambitious objective of expanding its solar and wind capacity to achieve carbon- neutrality in 2050. ...

Webinar: Energy storage in Brazil - emerging opportunities Pedro Vassalo Director Marco Conte Market Intelligent consultant Hudson Zanin Professor and researcher Jocelino Azevedo Business development engineer Helena Furtado ...

Webinars Lista de Precios Asistencia Técnica ¿Donde comprar? Blog Contacto X DIFERENCIE A SU EMPRESA APRENDIENDO MÁS SOBRE LOS SISTEMAS CON ALMACENAMIENTO DE ENERGÍA EN NUESTRA SERIE DE WEBINARS VICTRON. PRÓXIMO WEBINAR Regístrate aquí para recibir toda la información sobre los próximos eventos online Victron. Otros ...

An email will be sent to you with a link so make sure you enter your details correctly. We will also send you a weekly newsletter with carefully selected energy storage industry news, videos and occasional free industry resources (e.g. white papers, presentations from our most recent Forum) to which you can unsubscribe at any time via a simple click of a button.

Attention international renewable energy investors: Chile is on the brink of becoming an energy storage powerhouse. With nearly 5 GW of storage capacity in the pipeline and ambitious plans to eliminate coal by 2025 and achieve carbon neutrality by 2050, Chile's commitment to renewable energy is unmistakable. The nation's reliance on variable renewable sources like solar PV and ...

Focus on the latest updates and opportunities for energy storage in France and Iberia, including the opening of the French aFRR capacity reservation market. Find Out More. The Energy Storage Supply Landscape: A Guide to BESS Procurement. September 3, 2024. In this webinar, energy storage experts from Clean Energy Associates (CEA) will provide a ...

AES has seen a hybrid wind, solar and battery energy storage system (BESS) project in Chile receive an environmental permit, while Oenergy has suffered a setback for a standalone project. Updates for both projects were recently posted by the Environmental Assessment Service (Servicio de Evaluación Ambiental or SEA) of Chile, where the grid ...

"Today, Chile is a superpower in terms of the development of energy storage due to the exceptional conditions of the Atacama Desert in terms of hours of solar radiation and the particularity of the energy mix of this vast area, where the penetration of solar energy reaches 50%", said David Ruiz de Andrés, CEO of Grenergy.

Webinar: Energy storage in Brazil - emerging opportunities Pedro Vassalo Director Marco Conte Market Intelligent consultant Hudson Zanin Professor and researcher Jocelino Azevedo Business development engineer Helena Furtado Project Manager [Moderator] Brazil leads Latin America in renewable energy, with hydropower accounting for 55%, wind energy at 15%, and solar at 6%. ...

A selection of video replays from the Energy Storage Digital Series, hosted earlier this year by Energy-Storage.news" publisher Solar Media are available on and have been compiled into a handy playlist.. While the team gears up to do it all again soon with the hosting of the Energy Storage Virtual Summit from 21 to 25 September, you can catch up on ...

Nearly 2 GWh of renewable energy was curtailed in Chile in March of 2024, with a heavy concentration in the Northern regions of Atacama and Antofagasta. 2 Both regions, according to AMI estimates as of April 2024, have a BESS pipeline of 4.8 GW, 1.6 GW of which are assets already under construction or have an approved environmental license.

The planned energy storage projects will be located in various sites in northern Chile, where most solar and renewable energy power plants are situated, requiring a total investment of \$2 billion.

The project, which was revealed by Grenergy in November 2023, will pair 1GW of solar PV with 4.1GWh of energy storage, which the company said makes it the largest energy storage projects in the world. "The agreement with a leading company like BYD demonstrates our firm commitment to energy storage and represents a major step forward in securing the supply ...
