

Is Energy Vault a sustainable company?

Energy Vault Achieves Highest 2024 ESG Score Among Energy Storage Companies in its Industry to Date from S&P Global Ratings Energy Vault has achieved a Corporate Sustainability Assessment (CSA) score of 68 out of 100 from S&P Global ESG Ratings, placing us in the 98th percentile of our industry.

Why should you choose Energy Vault?

With our vast global network in leadership, management, and contribution, Energy Vault is well positioned to meet the large and currently unmet demand for sustainable and economical energy storage for renewable energy generation worldwide.

How did Energy Vault get funding?

In 2019, Energy Vault secured funding from Cemex before going on to secure \$110m of Series B funding to become the first energy storage investment of the SoftBank Vision Fund, and won Fast Company's World Changing Idea Award for transformative utility-scale energy storage.

Does Energy Vault have a GESS system?

In January, Energy Vault announced it had signed an exclusive 10-year agreement with a South African consortium called GESSOL for access to Energy Vault's GESS technology and VaultOS orchestration software (used in GESS, battery, fuel cell, or hybrid installations) throughout the 16 member-state Southern African Development Community.

Will Energy Vault Go Public?

Then, in September, Energy Vault announced it would go public on the New York Stock Exchange via a merger in Q1 of next year with Novus Capital Corporation II (NYSE: NXU), a special purpose acquisition company (SPAC), which is expected to provide up to \$388 million in additional funding.
