

What are ESD cabinets?

ESD cabinets are storage cabinets specifically designed to safely store sensitive electrical components, such as PCBs (printed circuit boards), that are prone to damage from ESD (electrostatic discharge) - the flow of electricity between two objects.

What are Treston ESD storage systems?

Treston ESD storage systems are modular, innovative and easy to use. The product range includes storage units, ESD shelves, cabinets, bins, drawers and perforated panels. An ESD Protected Area (EPA) is a defined space within which all surfaces, objects, people and ESD Sensitive Devices (ESDs) are kept at the same electrical potential.

What is ESD furniture?

RS offer a selection of high-quality ESD furniture and accessories including cabinets, draws and dividers for all your workshop, laboratory and cleanroom needs. ESD storage cabinets are usually made from polypropylene, a semi-conductive, high-impact material that's robust and durable.

What is an ESD protected area (EPA)?

An ESD Protected Area (EPA) is a defined space within which all surfaces, objects, people and ESD Sensitive Devices (ESDs) are kept at the same electrical potential. An EPA can be organised with Treston storage products. A modular anti-static ESD storage solution with user-oriented design and quality materials will work well in any space.

Why is ESD furniture a necessity?

Workplace safety is critical. That's why it's a best practice to require ESD equipment and ESD furniture that help control static electricity in the workplace, and ensure all personnel handling ESD-sensitive components are grounded. So in Electronic Workspaces ESD furniture is a necessity.
