

What is Delta Battery energy storage system (BESS)?

Delta's lithium battery energy storage system (BESS) is a complete system design with features like high energy density, battery management, multi-level safety protection, an outdoor cabinet with a modular design. Furthermore, it meets international standards used in Europe, America, and Japan.

How much EV capacity will Thailand have?

The annual capacity will increase to 4GW as Thailand is expected to gradually shift from oil-powered car manufacturing to EV production, he said. The company earlier received orders to assemble 500 buses and has already delivered 100 of them to buyers. Delivery of the remaining buses is scheduled for early next year.

Why did EA's lithium-ion battery factory pass a trial run?

EA's lithium-ion battery production factory in Chachoengsao has passed a trial run, following a delay caused by lockdown measures to contain the spread of Covid-19.

When will Thai electricity project start?

This project is planned to start in April 2022 and will be commercial in December. By then, it can provide clean electricity for Thai people with constant power, help improve the overall stability and security of Thai power grid and quicken Thai's step to realize the National 4.0 Strategy.

Will EA ESS be a game changer in the power generation industry?

"The ESS will be a help and become a game changer in the power generation industry," said Mr Vasu. EA is also operating four solar farms, with a combined capacity of 278 megawatts, and two onshore wind farms, with a total capacity of 386MW. The firm expects its revenue to grow by 20% this year from 17.2 billion baht in 2020.

Will EA produce stationary batteries for renewable power plants?

In the long term, EA plans to produce stationary batteries for renewable power plants, many of which are facing the intermittency of energy sources such as the sun and wind. "The ESS will be a help and become a game changer in the power generation industry," said Mr Vasu.

Koh Jik is a peaceful fisherman's village located in the east of Thailand, where most islanders are fishermen living off the sea. Due to its remoteness and no connection to the national grid, the community has entirely relied on a ...
