

What is the European Association for storage of Energy (EASE)?

Join us EASE The European Association for Storage of Energy (EASE) is a diverse community of members that unite their efforts to promote the entire energy storage value chain, which is a fundamental link to a decarbonised energy system.

How does ease support the deployment of energy storage?

EASE supports the deployment of energy storage to support the cost-effective transition to a resilient, climate-neutral, and secure energy system. EASE, located in Brussels, is the leading member-supported association representing organisations active across the entire energy storage value chain.

What is energy storage global conference 2024?

The Energy Storage Global Conference 2024 (ESGC), organised in Brussels by EASE - The European Association for Storage of Energy, as a hybrid event, on 15 - 17 October, gathered over 400 energy storage stakeholders and covered energy storage policies, markets, and technologies.

What is the European storage database?

With information on assets in over 29 countries, it is the largest and most detailed archive of European storage. While the report is focused on electrical storage, the database holds project information for multiple other storage technologies (e.g. pumped hydro, CAES, gravity, large-scale thermal etc).

Which countries support the deployment of energy storage?

EASE supports the deployment of energy storage to enable the cost-effective transition to a resilient, carbon-neutral, and secure energy system. The report covers 14 countries; Belgium, Finland, France, Germany, Great Britain, Greece, Norway, Netherlands, Ireland, Italy, Poland, Spain, Sweden and Switzerland.

Why should you attend the energy storage global conference?

Featuring in EASE's publications and events, such as the Energy Storage Global Conference, gives you visibility and the opportunity to strengthen your network among storage experts.

EASE has published an extensive review study for estimating Energy Storage Targets for 2030 and 2050 which will drive the necessary boost in storage deployment urgently needed today. Current market trajectories for storage deployment are significantly underestimating the system needs for energy storage. If we continue at historic deployment rates Europe will not be able to ...

"Energy storage is regarded as relatively new" in Ireland, Phelan says. The first projects to be handed contracts through the DS3 grid services scheme set up by high voltage grid operator EirGrid to help meet Ireland's 2020 goal of sourcing 40% ...

European Association for Storage of Energy Avenue Adolphe Lacombel 59/8 1030 Brussels. tel. +32.2.743.29.82. info@ease-storage . contact us; become a member; join our Team; Follow us. Subscribe for the Newsletter your e-mail ...

Energy storage supports Europe in this transition. Operating in a system with an increasing share of renewables. ... European Association for Storage of Energy Avenue Adolphe Lacombel 59/8 1030 Brussels. tel. +32.2.743.29.82. info@ease-storage . contact us; become a member;

The European Association for Storage of Energy (EASE) is the voice of the energy storage community, actively promoting the use of energy storage in Europe and worldwide. It actively supports the deployment of energy storage as an indispensable instrument within the framework of the European energy and climate policy to deliver services to, and ...

European National Energy Storage Associations (ENESA) ... European Association for Storage of Energy Avenue Adolphe Lacombel 59/8 1030 Brussels. tel. +32.2.743.29.82. info@ease-storage . contact us; become a member; join our Team; Follow us. Subscribe for the Newsletter

The Market Monitor is based on the most extensive database of European energy storage projects. The database of over 2,600 projects includes detailed data on current installations by customer segment (residential, C& I and front-of-meter) ...

However, while some opportunities appear to be opening up, concern was expressed in June about the lack of consideration of energy storage by European Union Member States in their proposed economic recovery plans, by 12 national energy storage associations, as well as by the continental European Association for Storage of Energy (EASE).

Happy to have attended on behalf of EASE - The European Association for Storage of Energy to last week's #InnovationFund Expert Group's meeting! ? Key comments regarding the #IF2023 results ? 31/85 of the proposals invited to grant prep were resubmissions. ? An all time high of 53% of projects passed all criteria - a clear sign that stakeholders are gaining familiarity with IF ...

Financing from the European Union is still needed to foster the development of energy storage in Europe, and EASE is actively involved in the shaping of funding programmes. ... European Association for Storage of Energy Avenue Adolphe Lacombel 59/8 1030 Brussels. tel. +32.2.743.29.82. info@ease-storage . contact us; become a member;

The European Association for Storage of Energy (EASE) is the voice of the Energy Storage community by having over 40 members representing electric grid operators, utilities, research, academia, and industry. The association is ...

Become a part of the leading energy storage association in Europe, and help drive energy storage forward! EASE membership grants your organisation the opportunity to be directly involved in the EU decision making process. Additionally, you will benefit from a variety of services, including market intelligence updates, advise and analysis on ...

EASE, located in Brussels, is the leading member-supported association representing organisations active across the entire energy storage value chain. EASE supports the deployment of energy storage to support the cost-effective transition to a ...

"The new Renewable Energy Directive draft is bound to positively impact the energy storage industry as a whole by unlocking several projects and speeding up facilities" development all across the EU," EASE ...

at a later stage or to deliver the heat directly. For example, solid-state thermal energy storage can be used for both purposes. Table 1. CETO SWOT analysis of the competitiveness of novel thermal energy storage technologies Strengths Promising research in novel thermal energy storage technologies, with several ongoing pilot projects.

"The new Renewable Energy Directive draft is bound to positively impact the energy storage industry as a whole by unlocking several projects and speeding up facilities" development all across the EU," EASE said in a statement sent to media including Energy-Storage.news. "If the European Union follows this path, the decarbonisation of ...
