

Who is Expro energy services?

For clients working across the entire well life cycle, Expro is the visionary full-cycle energy services expert offering novel, insightful solutions, dependable competency and award-winning safety.

What can Expro do for You?

A client in Colombia was eager to produce cleaner energy, and Expro provided a solution that monitored and collected accurate, representative samples from the surface down to a depth of approximately fifteen feet.

How are Expro technologies being developed to meet the energy transition?

Expro technologies are being developed at pace to meet the demands of the Energy Transition. Each play their part in reducing our carbon footprint and assisting our customers to achieve their environmental ambitions. Here's just some of our success stories to date:

What makes Expro unique?

Given our broad geographic footprint, diversified portfolio of solutions across the well lifecycle, and long-tenured, blue chip customer base, Expro has a resilient business model that positions us to succeed and deliver enhanced value to shareholders through market cycles.

Why should you choose Expro production services?

Expro's perforating, well clean up and subsea safety systems are specifically designed to minimise the risk in completion, intervention and well clean up operations. Expro provide a range of production services that enable you to accelerate first oil, optimise production from existing wells and enhance production from mature, declining fields.

What makes Expro different from Frank's International?

Long recognized for extraordinary performance, superb safety and long-standing partnerships, and now incorporating Frank's International, Expro is focused on enabling our customers to make timelier and better-informed decisions.
