How much solar irradiation will the Faroe Islands produce in 2021?

At the same time, the plant is the first major photovoltaic system in the Faroe Islands, and although we are only in mid-November and solar irradiation in 2021 is more than 10% below normal levels, with 161,200 kWh it has already produced more than the estimated nominal production.

Is solartag a good roof material?

Our roof has been tested by independent entities, most recently with Wind and Load Testing, making Solartag a viable option, for example, in the Faroe Islands. Solartag is an approved building material, which has obtained an Environmental Product Declaration (EPD).

Are solartag panels PFAS free?

Solartag is an approved building material, which has obtained an Environmental Product Declaration (EPD). This means, among other things, that Solartag panels with integrated solar cells are free from PFAS, which is a chemical with negative environmental consequences.

Are there any surcharges on Xolta solar panels?

There are no surcharges. Our price includes Solar roof tiles, cuts, ridges, fittings, cables (including any extension cables used around windows, etc.), and routing to the inverter. If you also buy a Xolta battery, a Xolta authorized electrician is included in the price. And all prices are of course inclusive of VAT.

Factors to Consider When Choosing a Solar Panel Brand. When selecting a solar panel brand, several factors should be considered to ensure you get the best value and performance for your investment. One of the most crucial aspects is efficiency, which determines how much of the sun's energy the panel can convert into electricity. Higher ...
