

The research group investigates and develops materials and devices for electrochemical energy conversion and storage. Meeting the production and consumption of electrical energy is one of the major societal and technological ...

"It's exciting to build a large-scale thermal energy storage, which will also act as a primary production plant in Pornainen's district heating network," says Liisa Naskali, COO at ...

A storage device made from sand may overcome the biggest issue in the transition to renewable energy. ... But in a corner of a small power plant in western Finland stands a new piece of ...

The DualFlow project will introduce a radically new energy conversion and storage concept. The breakthrough idea involves combining battery storage, hydrogen generation and production of ...

5 ???&#0183; Finland's 100MW sand battery turns 2,000 tons of fireplace waste into power. A hot new contender in the realm of energy storage is emerging. Finnish company Polar Night Energy is rapidly advancing the development of an ...

A major part of the development has been centered around Finland detaching from its dependence on Russia, whether it be imported electricity, natural gas, or oil imports. The overall trend is clear: with the help ...

Taaleri Energia recently recruited a new investment director for energy storage in Ville Rimali, who came from five years at W&#228;rtsil&#228; where he was most recently Director, ...

In May 2024, SENS entered into a principal agreement with Callio Pyh&#228;j&#228;rvi, a Finnish multidisciplinary development company, to provide the technical solutions to develop an ...

Finnish companies Polar Night Energy and Vatajankoski have built the world's first operational "sand battery", which provides a low-cost and low-emissions way to store ...

Finland has also made a noteworthy shift toward clean energy. More than 90 per cent of the energy it generates is already carbon neutral; yet, it has set its sights on doubling clean energy production to build a more robust and sustainable ...

The Lakiakangas electricity storage is reportedly the first electricity storage in Finland with capacity for multimarket trading. In this context, multimarket trading refers to ...

Subscribe to Newsletter Energy-Storage.news meets the Long Duration Energy Storage Council Editor Andy

Colthorpe speaks with Long Duration Energy Storage Council director of markets and technology Gabriel Murtagh. News ...

STOREtrack is Europe's leading database of storage projects, helping you keep your finger on the pulse of the European energy storage markets. The database tracks the deployment of storage across 28 countries, ...
