

Does solar make sense in island conditions?

Solar just makes sense in island conditions. Dependence on imported fuels, high electricity costs, increasingly devastating storms, and an urgent need for improved grid resiliency makes solar a clear choice for island nations and territories over the world. Solar just makes sense in island conditions.

Can solar power be used in the Bahamas?

The experience was a substantial help for installing the Bahamas' largest solar array at Chub Cay. Caribbean businesses on the island contend with exorbitant electricity prices, poor reliability and poor air quality from diesel-powered generators. Solar is a viable alternative at less than half the cost of conventional sources in the Caribbean.

What is the largest ground mount PV system in the Bahamas?

As the largest ground mount PV system in the Bahamas, the Cat Cay project utilized Terrasmart's proprietary ground screws, benefiting from a cost effective solution that would have been impossible with driven piles or the complexity of a costly concrete foundation.
