

French Polynesia big batteries for solar panels

Hot water heating takes about six panels of energy a day, and air conditioning can take about 12 panels a day, so if just those can be run from PV alone and without the batteries, that will extend the life of the batteries by at least 50 percent or more and probably reduce the battery bank size by 30 percent.

Shop 30W Photonic Universe monocrystalline solar panel with 3m of dual core solar cable, for charging a 12V battery in a motorhome, caravan, camper, boat or yacht, or off-grid/backup solar power systems online at best prices at desertcart - the best international shopping platform in French Polynesia.
