

Sofo-Soler offers the benefits of sustainable living. Our solar water heaters provide homes and businesses with reliable and efficient solar hot water heaters. #solarwaterheater #solarspareparts #homesolar #waterstoragetanks #solartech #duraco #resiglas #skyrays #standardsolar #airconditioner #householdfans #Hisense

The Duraco Solar Water Heaters are made from the latest thermal technology known as Vacuum Tubes. The solar unit consists of a solar collector and a hot water storage tank. They have been designed and built to suit weather conditions similar to those prevailing in Mauritius. ... o The maximum distance between the tank and the panel is 50m ...

Duraco Solar lights can be mounted on wall or placed on the ground to brighten up your driveway, backyard and more. It consists of an integrated battery, photovoltaic panel, light sensor, timer control. and remote control. Specification o Lighting mode: Full bright o Solar charging time: 6 - 8 hours sunlight o Lighting for more than 10 ...

Capacity: 150 Litres Recommended Number of Users: 2-3 Non-Pressure Type Free installation on roof Our Solar Water Heaters are made from the latest thermal technology known as Vacuum Tubes or Heat Pipes. The solar unit consists of a solar collector and a hot water storage tank. They have been designed and built to suit weather conditions similar to those prevailing in ...

Improve your energy efficiency with the Duraco Solar Water Heater, a cutting-edge solution crafted with precision. The solar collector and hot water tank, forged from premium stainless steel 316, ensure durability and optimal performance. Embracing the latest thermal technology, whether Vacuum Tubes or Heat Pipes, this solar water heater ...

Capacity: 300 Litres Recommended Number of Users: 5-6 Split Pressure Type Free installation on roof Our Solar Water Heaters are made from the latest thermal technology known as Vacuum Tubes or Heat Pipes. The solar unit consists of ...

Capacity: 200 Litres Recommended Number of Users: 4 Preheated Pressure Type Free installation on roof Our Solar Water Heaters are made from the latest thermal technology known as Vacuum Tubes or Heat Pipes. The solar unit consists of a solar collector and a hot water storage tank. They have been designed and built to suit weather conditions similar to those prevailing in ...

Capacity: 300 Litres Recommended Number of Users: 5-6 Non-Pressure Type Free installation on roof Our Solar Water Heaters are made from the latest thermal technology known as Vacuum Tubes or Heat Pipes. The solar unit consists of ...

The Duraco Solar Water Heaters are made from the latest thermal technology known as Vacuum Tubes. ... o The maximum distance between the tank and the panel is 50m (the more the distance, the higher the loss of efficiency) o The height of the tank 200L is 1485 mm and the 300L is 1754mm. 8 Years on Tank.

The Duraco Solar Water Heaters are made from the latest thermal technology known as Vacuum Tubes. The solar unit consists of a solar collector and a hot water storage tank. They have been designed and built to suit weather conditions similar to those prevailing in Mauritius. Pre Heated Pressure Solar Water Heater (High Pressure) Specification

Upgrade to the Duraco Compact-Split Solar Water Heater for a sustainable and cost-effective hot water solution. With advanced heat pipe technology, durable construction, and innovative design, this system ensures optimal performance and durability. Enjoy consistent hot water supply while minimizing maintenance hassles.

The warranty is applicable to your DURACO solar hot water system (hereafter called the solar system) and is as follows: Tubes and Heat Pipes: 180 months from the date of installation - Free replacement of failed tubes and heat pipes (Transport and Labour will be charged to owner)

Capacity: 300 Litres Recommended Number of Users: 5-6 Preheated Pressure Type Free installation on roof Our Solar Water Heaters are made from the latest thermal technology known as Vacuum Tubes or Heat Pipes. The solar unit consists of a solar collector and a hot water storage tank. They have been designed and built to suit weather conditions similar to those ...

Capacity: 200 Litres Recommended Number of Users: 4-5 Split Pressure Type Free installation on roof Frame angle (Degree): 30 degrees Test pressure (Bar): 10 Operating fluid pressure (Bar): 4 Our Solar Water Heaters are made from the latest thermal technology known as Vacuum Tubes or Heat Pipes. The solar unit consists of a solar collector and a hot water storage tank. They have ...

In its second phase, the project will install an additional 60 MWp of solar photovoltaic panels, also equipped with a 15-hour battery energy storage system. This will form a 120 MWp solar power plant spread over a 251 ...

The Ndjol&#233; hybrid solar power (1.440 panels) plant project is the first application of fuel save technology in Gabon. The plant's photovoltaic panels are connected to three 100 kW inverters. The solar power generated is sent to the transformer station over a medium-voltage line, and then a further 500 m to the national grid, using 7 poles ...
