Le lancement du chantier de la centrale solaire photovolta&#239;que d'Ay&#233;m&#233; Plaine, au Gabon, intervient pr&#232;s de six mois apr&#232;s la signature de la convention-cadre y relative (en mars 2022), entre le ministre gabonais de l'&#201;nergie et des Ressources hydrauliques, Alain-Claude Bilie-By-Nze et Praveen Pai, le charg&#233; des Op&#233;rations de Solen.

The Ay&#233;m&#233; Solar Power Station is a proposed 120 megawatts solar power plant in Gabon. The power station is under development by Solen, an independent power producer (IPP). The solar farm will be developed in two phases of 60 megawatts each. The energy generated at this power station is expected to be sold to the Energy and Water Company of Gabon (Soci&#233;t&#233;d'Energie ...

Gabon has announced the start of construction of eight solar power plants in three regions of the country. Solar Power Projects R&#233;gis Nzoundou Bignoumba, General Manager of the Deposit and Consignment Fund (CDC) confirmed the reports and said that thirty days after the launch the land to accommodate the facilities for these plants should have been prepared ...

Towards solar power in Gabon: an innovative approach. Although half of Gabon's electricity is generated by renewable sources, its penetration of photovoltaic solar energy is low. OMP's project is part of a wider perspective, contributing to the establishment of a commercial and industrial solar energy balance in the country.

These Solar dryers will help solve many of the problems that are associated with sun drying and help farmers get more money for their produce since the quality of the dried produce will be enhanced by the solar dryers, this will in turn have a net effect on their income and the food supply of the nation.
