

Can a solar shingle be used on a roof?

The visually flawless integration into a wide variety of roof surfaces is only possible to a limited extent with conventional solar modules. The Solar Plain Tile developed by paXos offers the aesthetics of a modern roof shingle, but in combination with the use of PV and solar thermal energy.

Are solar shingles durable?

Solar shingles are more durable than most standard roofing materials, even in harsh weather conditions like hail, snow, rain and high wind. At SunStyle, we believe that building integrated photovoltaic (BIPV) products are key to the clean energy transition.

What is SunStyle's roofing?

SunStyle is a structural roof and solar module combined, providing a durable, leak-proof roofing solution that is both beautiful and protective. Solar shingles are more durable than most standard roofing materials, even in harsh weather conditions like hail, snow, rain and high wind.

How to choose a solar roof?

Choose the size of your Autarq solar roof freely and depending on your energy needs. Just as durable as original roof tiles. Transform your roof into an attractive power generator - regardless of its shape or size. The Autarq system is modular, making it perfect even for complex roof surfaces.
