You need a voltage converter in Gibraltar to protect your devices! The standard voltage in Gibraltar (240 V) is much higher than the voltage level your devices typically operate at in the United States (120 V). Without a converter, you risk serious damage to your devices. Additionally, be aware that the frequency in Gibraltar differs.

Overall I am pleased with this purchase and would recommend it. If you aren't familiar with Gibraltar hardware, they make very good products. I have a Road Series Curved Rack, the multi-purpose rack discussed here, a Gibraltar throne, Gibraltar cymbal booms and cymbal arms, and a Gibraltar kick pedal. All are very well made products.
