

What is a greenlinx battery?

Greenlinx are the UK's first battery to use High Power Density (HPD) Lithium Cells, which can utilise 100% of the battery capacity (other lithium batteries can only use 90%). This is a battery unit that can easily be retrofitted into an existing solar panel system, or be a part of the design from the initial planning. So it is a flexible system.

Who makes greenlinx battery storage?

Greenlinx are exclusively distributed by Infinity Innovations Ltd. in the UK and Europe. While they are quite recent to the UK market they are by no means new to the battery storage industry. As later arrivals to the domestic battery storage market they have certainly raised the bar in almost all areas of performance and technological development.

Who is greenlinx?

Greenlinx is an established manufacturer of renewable technologies including battery storage products. The domestic and commercial battery solutions are distributed globally and have obtained a good market share as customers appreciate their quality.

How do I contact greenlinx harnitek?

Call us now on 0800 156 0191 Do you know exactly what you are looking for? Yes! Don't worry, we're here to help either way! Greenlinx Harnitek uses HPD lithium to achieve market leading charge and discharge levels. Smaller than other batteries this great looking battery has inbuilt modem to allow single batteries to be monitored online.

Is greenlinx a flexible system?

So it is a flexible system. Greenlinx sells batteries with a capacity of 3.2 kWh per unit. It is easy to link multiple batteries together to obtain the amount of battery storage needed. For example, if the system requires 12.8 kWh of storage, then four batteries will have to be purchased.
