

What happened to Greensmith energy management systems?

The technology group Wärtilä today announces that it has closed the acquisition of Greensmith Energy Management Systems Inc., a market leader in grid-scale energy storage software and integrated solutions.

What is Greensmith energy?

Greensmith Energy designs and deploys the world's most advanced energy storage systems. From grid-scale to behind-the-meter and microgrid solutions, the Greensmith GEMS software platform enables effective and efficient delivery of stable power with unsurpassed performance and profitability.

How much is Greensmith worth?

In 2016, Greensmith's revenue was USD 32 million with over 40 employees. The transaction is valued at USD 170 million (enterprise value). Greensmith will operate as a business unit within Wärtilä Energy Solutions providing both stand-alone energy storage as well as hybridized energy systems, control software, and integration expertise.

What is Greensmith gems & Wärtilä energy solutions?

Greensmith's GEMS software platform optimizes the performance of energy storage and integrated grid assets by lowering costs and maximizing system return on investment. Wärtilä Energy Solutions is leading the transition towards a 100% renewable energy future.

Why did Wärtilä acquire Greensmith?

"The acquisition of Greensmith positions Wärtilä as a global leader in energy system integration and hybrid solutions", said Javier Cavada, President of Wärtilä Energy Solutions.

As part of the 53 MWh project slated to fully deploy in 2016, Greensmith will supply its GEMS5 software technology, an industry-leading platform used to deliver 6 grid-scale systems in 2015 on ...

Construction and commissioning of a 20 MW battery energy storage system (BESS) in California, USA, has been successfully completed, Greensmith Energy has announced. The facility is among the largest BESS facilities in North America and capable of providing 80 MWh of electricity over a four-hour period. It was installed at a site in Pomona ...

Energy storage solutions and software company Greensmith Energy has installed its software platform at an existing energy storage site of giant US utility American Electric Power (AEP). The GEMS software, would ...

he technology group Wärtilä today announces that it has closed the acquisition of Greensmith Energy Management Systems Inc., a market leader in grid-scale energy storage software and integrated

solutions. The companies announced ...

Wartsila Energy Solutions" president Javier Cavada said: "Together with Greensmith we will become a global energy systems integrator. "Greensmith provides unparalleled software and energy storage knowledge and we provide our global footprint, EPC expertise, and large sales network."

The technology group Wartsila today announced the release of GEMS 6 (Greensmith Energy Management System, version 6), the latest generation of its award-winning software platform proven across grid-scale deployments globally. With this latest release, GEMS continues to be the most advanced energy management solution available today, deployed ...

The technology group Wartsila today announces that it has closed the acquisition of Greensmith Energy Management Systems Inc., a market leader in grid-scale energy storage software and integrated solutions. The companies announced the acquisition in May following a year-long global cooperation on stand-alone energy storage and hybrid energy solutions. In 2016, ...

Greensmith has developed an energy management software system called GEMS, currently offered in its fifth generation. This platform enables utilities, EPC companies and IPPs to manage and monitor individual systems or entire fleets of systems, identifying and diagnosing equipment issues in real time, and extending system performance and ...

Greensmith Energy Management Systems Profile and History. As one of the largest providers of energy storage software and integration services, Greensmith's mission is to make energy storage a fundamental part of a cleaner, more intelligent and distributed energy infrastructure.

Wartsila said on Monday that the transaction is worth US\$170 million, dwarfing the US\$50 million price tag placed on Greensmith's rival Younicos by Scottish power equipment firm Aggreko, which bought out Younicos this week. Wartsila is targeting a system integration role for itself, leaning on Greensmith's expertise and control platform GEMS.

Last week Greensmith, best known for its software platforms with a leadership team that came from the cloud computing industry and decided to apply some of the same principles to energy, said that it had signed contracts to install its Greensmith Energy Management System (GEMS) software and control platform to the island's new "grid".

The technology group Wartsila has released a new solution, GridSolv, the company's first

standardized energy storage solution. GridSolv is an advanced energy storage solution that is designed to offer maximum flexibility ...

Wärtilä has signed an agreement to acquire Greensmith Energy Management Systems Inc. (Greensmith), for an undisclosed amount. The closing of the transaction is subject to US regulatory approvals. Ownership of the company will be transferred to Wärtilä after closing of the transaction which is expected to occur no later than July 2017.

Laos: Energy intensity: how much energy does it use per unit of GDP? Click to open interactive version. Energy is a large contributor to CO 2 - the burning of fossil fuels accounts for around three-quarters of global greenhouse gas emissions. So, reducing energy consumption can inevitably help to reduce emissions. However, some energy ...
