

What does smappee do?

Smappee is an award-winning global cleantech company that aims to save its customers energy and money by reducing energy consumption and improving energy efficiency. Smappee's future-proof energy management system uses state-of-the-art technology to analyze the real-time use of electricity and solar power.

What is smappee's future-proof energy management system?

Smappee's future-proof energy management system uses state-of-the-art technology to analyze the real-time use of electricity and solar power. The system not only provides a large amount of highly valuable, actionable data down to the appliance level but also allows users to control their energy flows.

Why should you join smappee?

Join the Smappee community and receive our monthly newsletter. Smappee helps you drive a better future with smart charging and energy management solutions. For home and for business.

Why should you choose smappee enerdo?

Thanks to Smappee Enerdo can do both every day. Be ahead of the energy curve and expand your product range. With the professional training of the Smappee Academy, it is easy to become a highly rated Smappee Certified Installer. Knowledge is power.

How does smappee NILM work?

Use Smappee's patented NILM (Non-Intrusive Load Monitoring) to detect appliances and their estimated consumption by attaching a clamp on the power cable. The energy management system is future-proof and can adapt to any scenario, allowing over-the-air updates and extra modules to be added at any time.

Why should you use smappee's charging management services?

Smappee's charging management services offer an integrated solution for every situation that requires clear insight into the charges and the associated revenues or costs. From split billing to CPO and e-MSP services, it's all possible within the Smappee ecosystem. Moreover, you can be sure of accurate and reliable payment to your account.

Smappee Energy - Installation manual - English 7 Make sure there's a stable Wi-Fi connection at the location of installation. Smappee Energy is only compatible with 2.4 GHz Wi-Fi networks. Make sure the Wi-Fi network is online when powering on the Smappee monitor. The arrow indicated on the CT (K & L) must point in the

Advanced energy IoT technology integration. The smart energy transition is happening so why not find a trusted third-party manufacturing partner who stays one step ahead of the rapidly changing technology? By collaborating with Smappee, you can rest assured that you will be integrating a future-proof energy

management solution.

Le marché énergétique connaît un bouleversement ; il évolue de la vente de kilowatt-heures vers des services énergétiques ; la demande. Smappee propose une plateforme qui répond à ces évolutions dans lesquelles se produisent. Sous-mesures de qualité ; utilitaire, n'importe quelle énergie en temps réel, service énergétique. Grâce ; notre technologie modulaire et évolutive, vous ...

This article will give a brief overview of how to view and analyse your energy consumption in the Smappee dashboard. The article will briefly go over the live values, our graphs and table and how to configure them. Live values.

Get more from every charge with Smappee. Our award-winning, ENERGY STAR certified EV Wall offers far more than what meets the eye. Compact, yet powerful, it seamlessly upgrades with advanced energy intelligence. Want to charge with solar or optimize your energy costs? Integrated with the Smartup Kit or Infinity, our EV Wall unlocks the full ...

Advanced energy intelligence sets us apart. Smappee's advanced energy management system, the Infinity, integrates with our charging infrastructure and drives smart functions. This not only helps your charging stations charge ...

Smart energy monitoring manufacturer Smappee has debuted its new Modbus energy meter. Tailored for industrial and commercial sites, Smappee's Modbus energy meter offers accurate submetering and energy metering functionalities. The data is transferred via Modbus RTU (RS-485) to any 3rd party gateway, data logger or scada system

Der Energiemarkt befindet sich im Umbruch und verlagert den Wert vom Verkauf von Kilowattstunden hin zu bedarfsgerechten Energiedienstleistungen. Smappee liefert die Plattform, um rechtzeitig auf diese Entwicklungen zu reagieren. Von Submetering in Versorgungsqualität bis hin zu Energiehandel in Echtzeit und Energie als Dienstleistung (Energy-as-a-Service). Mit ...

6 ??? GPA, in partnership with the National Renewable Energy Laboratory, received a \$3 million award from the U.S. Department of the Interior's Office of Insular Affairs for Phase II of the Guam 100...

Next to transportation, households are the largest energy-consuming sector. E.g. households account for 27.2% of the total final energy consumption in the EU. It has become obvious that it's crucial to lower the energy consumption of our households as much as possible. But how do you change your energy habits? It's challenging but our 4 easy steps will already ...

Smappee EV charging stations ensure cost-efficient charging of your car at home, work or on the road. Up to 6x cheaper. But that's not all. Smappee analyzes your consumption of electricity, solar energy, water and gas

in real time making it easy for you ...

Smappee helps you drive a better future with smart charging and energy management solutions. For home and for business. ... Become a trusted Smappee installer. Be ahead of the energy curve and expand your product range. With the professional training of the Smappee Academy, it is easy to become a highly rated Smappee Certified Installer. ...

Maximize efficiency and cut costs with the advanced energy management features of the Smappee Infinity. Residential and commercial voltage monitoring and dynamic load balancing between solar, EV & other appliances.

Smappee Infinity liefert den Anwendern das umfassendste und zukunftssicherste Smart-Energy-Angebot auf dem Markt. Die modulare und globale Lösung bietet eine erhöhte Energieeffizienz dank detaillierter Echtzeit-Energieverbrauchsdaten mit nicht nur einem, sondern drei Verfahren zum Submetering von Strom.

Smappee Infinity is a truly comprehensive energy management system that gives clients the insights, data and tools to manage their energy consumption and optimize their use of renewable energy. It allows you to add solar, gas and water to get a detailed overview of all energy flows and manage them to take full advantage of all self-generated ...
