

Who makes Csb batteries?

CSB Battery Technologies, part of Hitachi Chemical Energy Technology Co. Ltd., is a leading global manufacturer of Valve-Regulated Lead-Acid (VRLA) batteries, and our products are utilized in over 100 countries for telecommunications, UPS (Uninterrupted Power Supply), solar, wind power, emergency lighting, security and other additional applications.

What are Csb batteries used for?

CSB batteries were used in these devices in non-temperature-controlled conditions, off-grid, needing to provide stable power to critical instruments conducting measurements.

Who is Csb energy technology?

We changed our name to CSB Energy Technology Co., Ltd. in May 2020 and became a member of the Energywith Group based in Japan. Our worldwide distribution network and commitment to quality have contributed to our growth today. We established a ISO-certified quality assurance center reliability laboratory in Taiwan.

What makes Csb energy technology successful?

At CSB Energy Technology, quality of products and services offered is a cornerstone of what makes our company successful. In addition to carrying high standards in our manufacturing with ISO9001, 14001, 45001, 50001, we also have the unique distinction of being ISO17025.

How many locations does Csb energy technology have?

Founded in 1987, we have since established 6 business locations and 3 production locations with nearly 2,300 employees worldwide. We changed our name to CSB Energy Technology Co., Ltd. in May 2020 and became a member of the Energywith Group based in Japan.

Could Guinea's Kissidougou area be a lithium mine?

Previously best known for its diamonds, Guinea's Kissidougou area near the border with Sierra Leone has shown enough potential to convince one company to explore for lithium there. On 20 April, Global Mining Ressources filed an application for a permit to assess the lithium potential of the area.
