The deal follows an MSA Gulf Energy announcement earlier this month (22 March) with another major Chinese solar PV company, JinkoSolar, for the supply of PV modules with a total installed capacity of 3,500MWp, also to be deployed at GULF group company solar farms, co-located battery and solar plants and rooftop PV. Gulf Energy Development is ...

The Central African Republic (CAR) is one of the poorest and least developed nations. Its land-locked economy offers limited trade options. Most of the people live in rural areas from subsistence farming and informal means. Natural resources include timber, diamonds, and gold, but these are not well developed and are affected by rebel groups ...

We at Gulf have begun our transformation journey by investing in Indra Renewable Technologies Ltd. Indra is the fast-growing electric vehicle (EV) charging and smart energy technology company developing innovative charging and energy storage solutions for home and commercial use.
