

What does the Guyana Energy Agency do?

The Guyana Energy Agency continues to support national efforts in transforming the country's sustainable low-carbon pathway and the energy sector, as it contributes to providing cleaner, affordable energy access for all, as well as promoting energy efficiency and conservation practices.

How much electricity does Guyana have?

As of 2020, Guyana has an installed electrical capacity of 337 MW, based on a mix of fossil fuels (85.27%), biomass (12.46%), solar (2.26%) and wind energy (0.01%). However, over a quarter of electricity is lost during transmission and distribution due to faulty infrastructure.

What resources are available in Guyana?

In Guyana, solar energy, wind and hydropower are good complementary resources. Solar energy is available during daylight hours, peaking at noon, while wind is stronger during evening hours and at nights. Wind is lower during the wet seasons, while hydropower is fully available.

Where does Guyana's Energy come from?

This page is part of Global Energy Monitor's Latin America Energy Portal. More than 90% of Guyana's total energy supply comes from fossil fuels, with the remainder derived from renewables such as wood and sugar cane residue.

What is Guyana's 'guysol' project?

With these finances earned by Guyana's first LCDS, a significant project on renewable energy is being implemented -- the Guyana Utility-Scale Solar Photovoltaic Programme (GUYSOL), which commenced in June 2022. This programme will help the nation migrate, in about three years, to a grid that uses 19 per cent renewable energy.

How many solar homes are distributed in Guyana?

The GEA supported the implementation of a massive electrification project to supply, deliver, and distribute 30,000 solar home energy systems to hinterland and riverine communities in Guyana. A total of 26,398 units were distributed as of December 2023.

You can become a bridge of opportunity and possibilities between India and this vast continent, and together we can further improve the India-Caricom partnership."
