

Will Guyana deploy 8 PV plants linked to storage?

The Guyanese authorities are seeking proposals to deploy eight PV plants linked to storage. The government of Guyana and the Inter-American Development Bank (IDB) have jointly launched a tender to deploy 33 MW/34 MWh of solar-plus-storage capacity. The Guyanese authorities said the tender will be divided into three lots.

How many solar homes are distributed in Guyana?

The GEA supported the implementation of a massive electrification project to supply, deliver, and distribute 30,000 solar home energy systems to hinterland and riverine communities in Guyana. A total of 26,398 units were distributed as of December 2023.

What does the Guyana Energy Agency do?

The Guyana Energy Agency continues to support national efforts in transforming the country's sustainable low-carbon pathway and the energy sector, as it contributes to providing cleaner, affordable energy access for all, as well as promoting energy efficiency and conservation practices.

How many EV charging stations are there in Guyana?

Six electric vehicle (EV) charging stations were installed for public use in Regions Three, Four and Six. This project marks the first publicly accessible charging infrastructure along Guyana's coast. (Office of the Prime Minister photo)

The Guyana Power and Light (GPL) has issued a Request for Expression of Interest (REOI) seeking qualified companies capable of upgrading and expanding the Demerara Berbice Interconnected System (DBIS). This ...

Even as Guyanese authorities accelerate oil production offshore, strategic steps are being taken to diversify the nation's energy mix. According to the Head of the Guyana Energy Agency ...
