

How many mega-scale solar farms are there in Guyana?

Government of Guyana commissioned its second mega-scale solar farm, the 1.5 MW utility-scale solar PV plant at Bartica, Region Seven (Cuyuni-Mazaruni) in March 2023. At twenty-two (22) off-grid locations, GEA installed over 163 kWp of solar PV capacity and 800 kWh of battery energy storage.

How much solar energy is available in Guyana?

As of 2018, the total installed capacity for Solar PV in Guyana is 4.63 MW, with an estimated annual generation of 7.16 GWh. Solar energy is used for several purposes in Guyana, including drying agricultural produce, irrigation, ICT, and to improve electricity access in rural areas.

Is Guyana a good place to install solar PV?

Most locations across Guyana have excellent solar insolation levels and are ideal for solar PV generation. As of 2018, the total installed capacity for Solar PV in Guyana is 4.63 MW, with an estimated annual generation of 7.16 GWh.

How many solar PV farms will Guyana have?

Guyana Power and Light Inc. (GPL) is preparing plans for three utility-scale solar PV farms totaling 30 MW for the national grid in the long term, as well as a 0.75 MW Solar PV Farm at Wakenaam and a 4 MW Solar PV Farm at Onverwagt in the near future.

How many solar homes are distributed in Guyana?

The GEA supported the implementation of a massive electrification project to supply, deliver, and distribute 30,000 solar home energy systems to hinterland and riverine communities in Guyana. A total of 26,398 units were distributed as of December 2023.

How has Gea impacted Guyana?

GEA's energy progress has helped to address rising electricity demands and enhanced access to renewable energy supply across local communities. GEA supported the implementation of a massive electrification project to supply, deliver and distribute 30,000 Solar Home Energy Systems to Hinterland and riverine communities in Guyana.

Peak demand for electricity in Guyana stands at about 153 megawatts (MW) currently. In coming years, however, that demand is expected to triple. One major upcoming solar project, Dr. Sharma said, is the construction ...

Guyana's solar capacity is set to receive a significant boost with the signing of a US\$38 million contract between the Guyana Utility-Scale Solar Photovoltaic (GUYSOL) and a Chinese company...

The Strategy recognizes the need for Guyana to switch from nearly 100% dependence on fossil fuel-based electricity to clean, renewable energy supplies. Globally, renewable energy costs, ...

Quality 30kW on grid tie solar inverter converts 200-820V DC to 3 phase 208V-480V output voltage, supports 2 high efficiency MPPT tracking inputs. Grid tie inverter 3 phase adopts with transformerless design, LCD display, convenient ...

The Government of Guyana commissioned its second mega-scale solar farm, the 1.5 MW utility-scale solar PV plant at Bartica, Region Seven (Cuyuni-Mazaruni) in March 2023. At 22 off-grid locations, GEA installed over ...

The GUYSQL programme, a collaboration between GPL and SUMEC Group, aims to implement utility-scale photovoltaic projects to enhance Guyana's energy sustainability. Under this initiative, 80-megawatt solar PV ...
