

Who is H2 core systems?

Green hydrogen for everyone, everywhere. H2 Core Systems is focusing on the core of hydrogen based energy systems! We develop, manufacture and maintain modularly configurable production, storage and energy systems by combining electrolysis with storage, compression, fuel cells and everything around an H2 based eco-system.

How many kW does H2 core produce?

Since the founding of H2 Core Systems GmbH in 2020, over 7730 kWh have been generated with the help of our systems. Since its founding in 2020, H2 Core Systems GmbH has sold over 200 systems worldwide. Discover H2 Core's modular systems for producing, storing, and utilizing green hydrogen.

How many H2 core systems can be produced a year?

Capacity of series production is expanded to 500 systems per year. Discover how H2 Core Systems is creating green hydrogen with our modular electrolysis systems. Expandable, scalable, and available everywhere. Start your sustainable journey today!

Who is h2core systems?

H2Core Systems is a spin-off of TC Hydraulik GmbH. The company is also based in Heide and can look back on more than 35 years of experience in fluid technology mechanical and plant engineering. "We have been dealing with systems that work with oils, gases and other substances under pressure for a very long time.

WPS Water Purification System; Enapter AEM Electrolyser EL 4 Enapters AEM Electrolyser EL 4.0; Hydro Fuel Cell Power for H2; Enapter Dryer Additional Dryer for higher output purity; Hydro Hule Gas Compression System; Rejool PIONYR ...

„H2 Core Systems ist einer der erfolgversprechendsten Akteure, wenn es um technisch realisierbare und wirtschaftliche Wasserstofflösungen geht. Ihr anerkannte Expertise im Bereich modularer Wasserstofftechnologien ermöglicht es Unternehmen, anpassungsfähige Lösungen für verschiedene Anwendungen, einschließlich Energiesysteme und ...

Enapter's unique Energy Management System (EMS) allows for intuitive monitoring and control of the electrolyzers and dryers, as well as easy integration with third-party devices (ie. fuel cells, sensors, tanks, solar, wind, etc.). The EMS takes energy system control software to a whole new level. You can have a closer look at Enapters EMS-Page.
