Technical Features
Vrla battery, long cycle life
Special positive & negative paste ratio design.
Low internal resistance and excellent high rate discharge performance.
Lower self-discharge rate and better charge acceptability
prehensive design of floating charging and cycling use.
more stable performance for charge and discharge under high temperature.

The tubular batteries are highly suited for high cyclic applications. The battery can support heavy loads and applications, way more than SMF (Sealed Maintenance Free) batteries. Leverage of tubular batteries results in low loss of water and low maintenance. Tubular batteries are more resilient and offer better performance and high durability.
