

Who is Hengtong energy storage company?

JIANGSU HENGTONG ENERGY STORAGE TECHNOLOGY CO.,LTD. Hengtong Group is a national innovation-oriented enterprise in the fields of Optical Fiber Network, smart Grid, Big Data & Internet of Things (IoT), New Energy & New materials, etc. Hengtong was founded in 1991, headquartered in Wujiang, Suzhou.

What is Hengtong energy storage?

Hengtong Energy storage has two self-developed products: DC charger and AC charger. The products have the advantages of cloud monitoring, cloud operation, cloud management, intelligent operation, intelligent maintenance, dedicated system for large customers, channel diversion, and friendly UI interface.

Who is Jiangsu Hengtong energy storage technology?

Jiangsu Hengtong Energy Storage Technology Co., Ltd. is a wholly-owned subsidiary of Hengtong Group, established in 2019. We provide intelligent energy storage products which are safer, more efficient, less carbon emissions for the customers.

What makes Hengtong a good company?

HENGTONG GROUP CO., LTD. HENGTONG invests 5% of its sales volume annually in researching new products and technology of the future. HENGTONG has realized factory informatization, lean manufacturing and management informatization. It has systems in place to trace quality. Certified by: CE, KEMA, BV, ABS, DNV, CC, UL, GL, ROHS, and TLC.

2019-06-20, Hengtong Energy Storage Technology Co., Ltd. has successfully completed the reverse power transmission test of the 8MWh energy storage system.

The 100kW/233kWh commercial and industrial liquid-cooled energy storage system adopts an "All in One" design concept, integrating long-life cells, battery management system (BMS), high ...

Hengtong Energy's lithium iron phosphate high-voltage DC energy storage system is mainly used in energy storage applications such as new energy generation side, user side, power grid side, ...

The HELIOS H7000 residential energy storage system is a modular design that allows for flexible expansion and easy transportation. It has a built-in system protection for high safety levels. It ...

This product is mainly used for fast charging of electric vehicles. It integrates charging, billing, payment, communication, and data collection functions into one system. The user-friendly interface display and operation guidance make it ...

SUZHOU, CHINA / ACCESSWIRE / June 24, 2020 / An 8MWh energy storage project contracted by Jiangsu Hengtong Energy Storage Technology Co., Ltd. succeeded in reverse power transmission and was ...

?: 2019-06-20,1200 91320509ma1ykqa110,?
...

Adopting intelligent lithium battery control strategy, it is mainly used for 48V communication backup power supply scenarios. It has the characteristics of maintenance-free, high specific ...

The HELIOS H5000 residential energy storage system is a modular design, which allows for flexible expansion and easy transportation. It has a built-in system protection for high safety levels. It uses quick-connect terminal connectors for ...

Hengtong Residential Energy Storage System is a new hybrid energy storage system based on lithium iron phosphate batteries and equipped with a customized battery management system (BMS). The battery cells have a ...

This product is mainly used for slow and medium-speed charging of electric vehicles. It integrates charging, billing, payment, communication, and data collection functions. It provides a user ...

The HELIOS H5000 residential energy storage system is a modular design, which allows for flexible expansion and easy transportation. It has a built-in system protection for high safety ...

We offer solutions for energy systems, including distributed photovoltaics, commercial and residential energy storage system,integrated solar and storage systems, multi-energy complementary microgrids, and smart energy ...

An 8MWh energy storage project contracted by Jiangsu Hengtong Energy Storage Technology Co., Ltd. succeeded in reverse power transmission and was successfully connected to the grid ...

Hentong Energy"s lithium iron phosphate high-voltage DC energy storage system is mainly used in energy storage applications such as new energy generation side, user side, power grid side, and shared energy storage. The system ...
