Heucherella "Solar Power" is a hybrid between Heuchera and Tiarella. A perennial evergreen forming a neat mound of yellowish, lime green leaves mottled with dark red markings which deepen in colour during winter. Upright sprays of small, bell-shaped, white flowers appear from late spring to summer, flowering over a long period.

Heucherella Solar Power is an evergreen perennial which forms an attractive ground-covering carpet of colourful foliage in partial shade. This decorative variety displays scalloped, striking chocolate-brown leaves with bold lime green edges. During late Spring/Summer it produces sprays of slender stems with small, white bell flowers which look pretty in cut flower displays. ...
