

Who is hewalex solar?

HEWALEX for many years has been holding the leading position among global producers and providers of Renewables. It specifically refers to the production of flat plate solar collectors, whose production, in the early 90s, brought dynamic development of the company. They still remain the core production segment of the enterprise.

Does hewalex offer a warranty on solar thermal collectors?

PVD coating's characteristics are high absorption of solar radiation (95%) and minimum heat emission (5%). Since the 1990s, Hewalex has been granting its Customers the longest warranties on the market for solar thermal collectors. The standard warranty for F TLP ACR collector is 10 years.

Who is hewalex?

Collector's constructional solutions as well as production technologies are based on 30 years of experience - the longest on Polish market. In 2007 Hewalex was the first in Poland to introduce ultrasonic welding, which provides highest precision and quality of copper absorbers.

Which solar thermal collector has the longest warranty?

Since the 1990s, Hewalex has been granting its Customers the longest warranties on the market for solar thermal collectors. The standard warranty for F TLP ACR collector is 10 years. It is a direct warranty given by the manufacturer with a strong market position.

What is a hewalex absorber?

In 2007 Hewalex was the first in Poland to introduce ultrasonic welding, which provides highest precision and quality of copper absorbers. Connection of absorber sheet with piping at a molecular level with no other additional binder is characterized by maximum mechanical strength and highest coefficient of heat transmission.

Is hewalex a Polish company?

Out of the companies having their headquarters and major capital located in Europe, HEWALEX becomes TOP 5 of the ranking and second in the Europe. Again, as the only Polish enterprise. Taking this occasion, HEWALEX would like to thank the customers, installers, sellers, designers and all those, who trusted us.

Even the smallest solar thermal kit of 2 flat-plate solar collectors can reduce CO<sub>2</sub> emissions by up to 800 kg per year. This is roughly equivalent to the "work" of 120 mature trees. More than 220,000 Hewalex solar installations in operation are ...

Flat plate solar collector KS2600F TLP AC is the optimum solution in terms of technology and price. The

laser welded absorber is made of high quality materials - aluminium and copper (Al-Cu). High efficiency is achieved through the use ...

The ZPKS Connection Set consists of 1 pc of sensor housing with KS 1/2" Air Bleed Valve, 2 pcs of KS 3/4" Blanking Caps and a 1/2" / 1/2" Pipe Reducer. It is designed to connect one solar collector unit to the supply and return in a solar ...

The flow in the solar collector system is fully adjustable in a multi-stage manner, ensuring maximum efficiency of solar energy collection. The pump unit is adapted to support systems with a single set of solar collectors and a single boiler. The ...
