

What is the Grid Modernization Initiative (GMI)?

The Grid Modernization Initiative (GMI) works across the U.S. Department of Energy (DOE) to create the modern grid of the future. Our extensive, reliable power grid has fueled the nation's growth since the early 1900s; however, the grid we have today does not have the attributes necessary to meet the demands of the 21st century and beyond.

What is the DOE Grid Modernization Initiative?

Table 5.3. Table 5.4. This document summarizes the accomplishments of a three-year project funded by the U.S. Department of Energy (DOE) under its Grid Modernization Initiative, which is working across DOE to create the modern grid of the future.

Why is Grid Modernization important?

ble, environmentally sustainable, and equitable grid. The portfolio of grid modernization work helps integrate all sources of electricity, improve the security of our Nation's grid, solve challenges of energy storage and distributed generation, and provide a critical platform for U.S. comp

What is Doe's Grid Modernization multi-year program plan?

DOE's Grid Modernization Multi-Year Program Plan (DOE 2015a) identifies six aspects of grid performancethat together compose--from a national perspective--the foundational objectives of grid modernization. They are defined as follows:

What technologies are required for successful grid integration?

the reliability and security of the energy system. The suite of technologies and techniques required for successful grid Integration includes improved approaches to renewable power forecasting; application of energy storage technologies; advanced power electronics; "grid responsive" building technologies; vehicle-to-grid technologies; and ne

Are grid modernization activities cost-effective?

Cost-effectiveness is the most well-known perspective from which the affordability of grid modernization activities is assessed.

These centers are part of the Energy Systems Integration directorate, led by Associate Laboratory Director Juan Torres. NREL's grid research is aligned with the U.S. Department of Energy's Grid Modernization Initiative as ...

The Federal-State Modern Grid Deployment Initiative received commitments from 21 states. The program aims to bring together states, federal entities and power sector stakeholders to help modernize the U.S. power grid in order to meet an onslaught of both challenges and opportunities the sector will face in coming years.

The results will inform the upcoming 2024 Grid Modernization Index Report, which is targeted for publication in December. Utilities, transmission entities, state utility regulators, state energy officials, governors' staff, and other grid stakeholders should join the webinar to learn more about the Grid Modernization Index process and how to ...

oGrid Modernization Initiative (GMI) oGrid Modernization Multi -Year Program Plan (MYPP) oGrid Modernization Laboratory Consortium (GMLC) o\$220M Grid Modernization Lab Call oAccomplishments to date oFuture Direction. 12/15/2016 2. The 20. th. Century Grid.

tools, and frameworks to help enable grid modernization adoption. oThis presentation addresses: oGrid of the Past/Future oGrid Modernization Initiative (GMI) oGrid Modernization Multi -Year Program Plan (MYPP) oGrid Modernization Laboratory Consortium (GMLC) o\$220M Grid Modernization Lab Call oAccomplishments to date oFuture ...

The Department of Energy's Grid Modernization Initiative (GMI) has announced its strategy for investing in innovative new technologies to modernize today's power grid while ensuring it remains secure and sustainable. The GMI coordinates key research, development, demonstration, and deployment activities across the Department to maintain and ...

The Quarterly Business Review provides updates on the progress and financial health of the grid modernization initiative. And keep a look out for news articles about the projects and the teams that are making sure each and every project is a success. Day-ahead market development

The Grid Modernization Initiative (GMI) works across the U.S. Department of Energy (DOE) to create the modern grid of the future. Our extensive, reliable power grid has fueled the nation's growth since the early 1900s; however, the ...

Grid Modernization Initiative Grid Modernization Lab Call 2023 Revision Log: 1. Topic 2: a. Added language and footnote: i. "The White House released the "The United States Government National Standards Strategy for Critical and Emerging Technology" in May 2023. The National Standards Strategy cites "Automated, Connected, and

Join DOE's Grid Modernization Initiative (GMI) and Grid Modernization Laboratory Consortium (GMLC) for a webinar showcasing our strategy to address key research, development, and demonstration opportunities for enhancing the power grid. When: Monday, Oct. 21, 2024; 12-1p.m. Eastern time

WASHINGTON - The U.S. Department of Energy (DOE) today built on its Grid Modernization Initiative - an ongoing effort that reflects the Obama Administration's commitment to improving the resiliency, reliability, and ...

Building on the Biden-Harris Administration's legislative accomplishments and executive actions in tackling the grid modernization challenge, the initiative aims to bring together states ...

Grid Modernization Initiative Overview. 2 Increasing Extreme Events Increasing Security Threats. Growing Number of Prosumers. ... and partners to conduct over \$300M in cutting-edge R& D on grid modernization topics. Integrated Vision: Focuses on a fully-integrated electricity system from generation to load, including independent infrastructures. ...

PNM's filing requests a first-year billing increase of 1.74 percent, or an average of about \$1.20 per month, for residential customers that could begin in September 2023 if approved by

Initiatives such as the Infrastructure Investment and Jobs Act (IIJA), the Inflation Reduction Act (IRA), and the CHIPS and Science Act have ignited new discussions about the future of energy. ... Grid modernization is the process of making our networks "smarter" and more resilient through the use of cutting-edge technologies, equipment ...

GRID MODERNIZATION INITIATIVE PEER REVIEW 1.2.1 Grid Architecture JEFFREY D. TAFT, PHD (PNNL) 5/11/2017 1 April 18-20, 2017 Sheraton Pentagon City - Arlington, VA System Operations, Power Flow, and Control. System Operations, Power Flow, and Control 5/11/2017 2 Project Objectives
