

How can Apple Park save energy?

For example, modern LED bulbs will be used for lighting, which according to calculations, will save an average of 25% compared to older technologies. Using Bloom Energy batteries and backup generators will ensure Apple Park's energy independence so that they will not be left without power even in the event of a total grid failure.

Does Apple Park have solar power?

At Apple Park, power from the solar array that rings the roof can be stored in on-site batteries to help reduce costs from peak power consumption periods. [Photo: Carlos Chavarria]

Is Apple Park energy efficient?

Apple Park is one of the most energy-efficient buildings in the world, or at least that's what Apple calls it. Special ventilation system technology ensures that the building does not require any heating or air conditioning for nine months of the year. The main building is shaped like a circle and has more than 1.6 kilometres of circumference.

What makes Apple Park unique?

Apple loved glass, so all the buildings are made primarily of glass. Apple Park is 80% green, so 30 acres of greenery and an artificial pond are in the courtyard. Of course, there are 9,000 trees in total. Apart from the materials used (the building has about 6 kilometres of glass), what is unique about the project is its energy independence.

Where is Apple building a data center?

Apple recently announced plans to build a 400,000-square-foot, state-of-the-art data center in Waukee, Iowa, that will run entirely on renewable energy from day one. In Prineville, Oregon, the company signed a 200-megawatt power purchase agreement for an Oregon wind farm, the Montague Wind Power Project, set to come online by the end of 2019.

Is Apple Park a good place to work?

Apple Park is the beacon of creativity and unity meant to drive Apple into the future. Life at Apple's new campus was short-lived, however, since the COVID-19 pandemic drove most employees to work from home. Despite being able to hold thousands of employees, only a tiny fraction were able to work on-site from March 2020.

The most devoted Apple fans will also have a chance to purchase exclusive Apple-branded merchandise at the Apple Store, including T-shirts, hats, playing cards, and tote bags. The Visitor Center is the only place ...
