

At The Drawing BoardKiosk Maintenance in The FieldContracting The WorkThe real challenge in keeping a kiosk clean comes after the unit is placed into service. Of course, the component that will need the most attention is the touchscreen. Depending on the use, the screen could interact with hundreds of users a day. Touchscreen cleanliness can be of critical importance when deployed in health care facilities, where man...See more on kioskindustry NCR Information ProductsCleaning the KioskTo keep systems functioning at the top performance level, ensure that units are kept clean. Important: Take note of the following guidelines: o NCR recommends using Food Grade ...
