How to install solar panels on the roof . In short, the solar panels connect to a roof-mounted frame. The solar panels sit on the frame and are clamped with either a bolt, bracket, or other clamping devices. If you are using a kit, the clamps will match the frame making it easy to secure the panels to the roof.

The solar panels are provided and installed free of charge for the beneficiary households. To enhance awareness and encourage participation among eligible households, CEB has executed a successful outreach programme and awareness campaign, which resulted in the installation of solar systems for 2,000 households.
