

How to use the household energy storage meter

Can a home energy monitor make your home a smart home?

Even if you're already taken steps to make your home a smart home, you can benefit from a home energy monitor. Whole-house smart-home energy monitors fit into the home's electrical panel and connect wirelessly to other devices in the home. A Wi-Fi-enabled home monitor can communicate and interact with other smart-home devices.

Can a home energy monitor save you money?

Some energy monitor companies estimate they could save you about 9% on your annual electricity bill. Energy monitors are particularly useful if you're going solar - to start your solar journey today, visit the EnergySage Marketplace. What is a home energy monitor?

How do I choose a home energy monitor?

When purchasing a home energy monitor, the first step is to determine which type is best for your home's needs. Occupants of energy-efficient homes might prefer tracking only one or two appliances, while those looking to implement energy improvements across the entire home may want a more comprehensive model.

Should you monitor your home's energy use?

Learning how to better manage home energy use can lead to significant cost savings. A professional assessor can perform the evaluation or a do-it-yourself review can be helpful. But what if you could monitor your home's energy use on a monthly, weekly, or even daily basis?

Is an energy monitor a good idea?

An energy monitor is an efficient and easy way to measure the overall power usage of a household. However, an energy monitor as a device is not going to change your habits. Before installing an energy monitor make sure your home is already energy efficient. What consumes the most electricity in a home?

Should you install a home energy monitor?

One of the main advantages of installing a home energy monitor is to receive notifications on your phone about energy consumption, appliance activity, cost tracking and warnings about increased usage. For peace of mind, use compatible apps to check whether you turned off appliances when leaving your home.
