Reflect Orbital, a California start-up, plans to extend solar power into the night by reflecting sunlight onto solar farms using a constellation of space mirrors. This innovative approach could provide an extra 30 minutes of sunlight after sunset, potentially transforming solar energy production. Launch of the mirrors is planned for 2025. - TheDailyGuardian

Business Model and Concept. Reflect Orbital's innovative business model revolves around the concept of "selling sunlight." The company plans to launch a constellation of 57 small satellites equipped with large mylar mirrors, each measuring approximately 33 ...

Reflect Orbital is a company focused on delivering sunlight to Earth after dark using a network of in-space reflectors. They aim to capture and utilize solar energy, which is vastly abundant, to support sustainable energy solutions on Earth.
