Currently, Hungary's entire energy storage capacity stands at 30 MW. The new storage battery is set to be operational by 2025, making it easier and more cost-effective to store renewable energy. This development is expected to enable the green energy sector to make a greater contribution to Hungary's energy mix.

ABB has responded to rapidly rising demand for low and zero emissions from ships by developing Containerized ESS - a complete, plug-in solution to install sustainable marine energy storage at scale, housed in a 20ft high-cube ISO container.
